

NEW!

HEXBAND™

 OTTOLOCK®

THE GO-ANYWHERE CINCH LOCK

OTTOLOCK.COM

EXTRA TOUGH · COMPACT · LIGHTWEIGHT

NEW! OTTOLOCK HEXBAND™ is an addition to the product line featuring added resistance to shearing tools such as snips and cable cutters, making it a stronger quick-stop bike lock for users with higher security requirements. HEXBAND is differentiated by using six stainless steel band layers (versus three in the original) while still being wrapped in an internal Kevlar® jacket. HEXBAND is ideal for bicycle lock-ups, back or top of vehicles, tools, travel gear and more.

- **Extra Tough** – 6 layers of stainless steel provide added shear resistance. 2.5x steel thickness.
- **Lightweight** – Available in 3 lengths. 18" (190g), 30" (250g), 60" (375g).
- **Compact** – Coils to a 3 inch diameter. Easy to always carry.
- **Convenient** – Keyless resettable combination.
- **Durable** – Cerakote® ceramic paint and Santoprene® non-marring coating.
