

Exploring The
Outdoors
Since 1906

THE ORIGINAL PIONEER OF THE AMERICAN SNOWSNOW INDUSTRY.

est. 1906
TUBBS
SNOWSHOES

**MODERN INNOVATION.
QUALITY + CRAFTSMANSHIP.**

Since 1906, Tubbs has been dedicated to deliver snowshoes as tools for personal exploration, from Antarctic expeditions, snow-covered trails to the alpine bliss of the Dolomites.

Today, Tubbs is for the modern explorer, offering the traditional aluminum and modern composite snowshoes that are built to withstand the elements of winter across the globe. Still today, Tubbs' follows its compass to build snowshoes for all purposes like Walter F. Tubbs set out to do over 100 years ago.

Whether your next adventure finds you in the Green Mountains of Vermont or through the Canadian Rockies, explore in Tubbs.

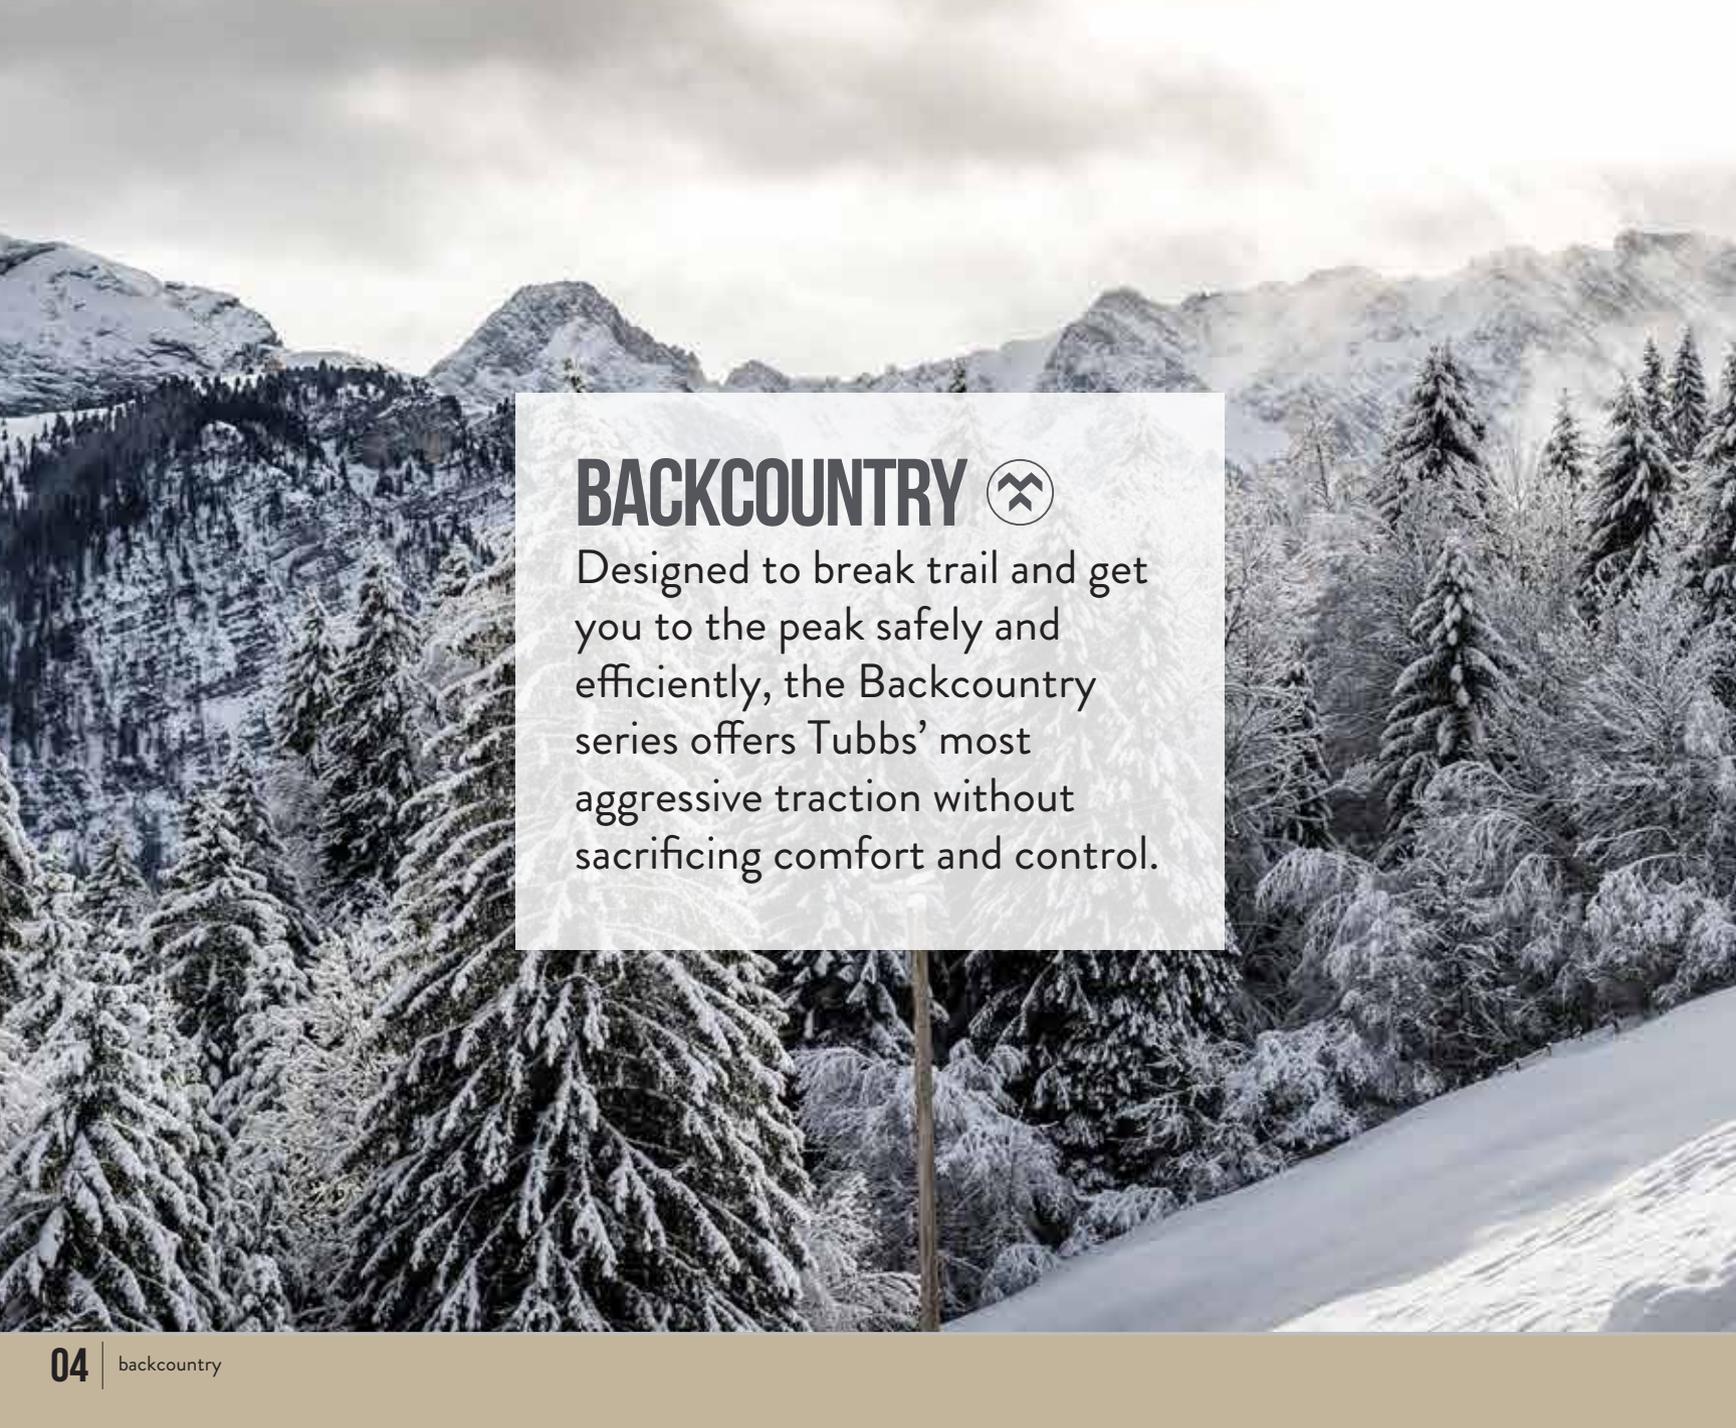

WE

ARE

SNOWSHOEING

BACKCOUNTRY

Designed to break trail and get you to the peak safely and efficiently, the Backcountry series offers Tubbs' most aggressive traction without sacrificing comfort and control.

NEW MOUNTAINEER

Easily access the backcountry with the Mountaineer. The NEW ActiveFit™ 2.0 binding and snow-shredding Anaconda™ crampon give the Mountaineer the go anywhere, do-anything versatility you need to reach for the peaks or explore uncharted terrain.

Men's sizes: 25", 30", 36"

Men's Weight/Pair: 4.9 lbs / 2.2 kg (25")

Women's sizes: 21", 25"

Women's Weight/Pair: 4.8 lbs / 2.2 kg (25")

Frame and Decking: Pro-Step™ Frame, Soft-Tec™ Decking

Articulation: R2™ Revolution Response

Control: ActiveFit 2.0™ Binding

Traction: Anaconda™ Toe Crampon, Python™ Heel Crampon

Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

FLEX • VRT

The FLEX VRT was designed to deliver premium performance for backcountry exploration. The DynamicFit™ binding with the Boa® Closure System produces evenly distributed tension around your boot for ultimate precision. The FLEX Tail™ design eases stress on your joints, allowing you to summit even the most intense peaks.

Men's available sizes: 24", 28" (XL)

Men's Weight/Pair: 4.5 lbs / 2.04 kg (24")

Women's available sizes: 22"

Women's Weight/Pair: 4.0 lbs / 1.81 kg

Frame and Decking: Torsion Deck™, FLEX Tail

Articulation: Rotation Limiter

Control: DynamicFit™ Binding

Traction: Viper 2.0™ Toe Crampon, Traction Rails

Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

NEW FLEX • ALP

The FLEX ALP ups the ante for backcountry enthusiasts with micro-serrated 3D-Curved Traction Rails and the Viper 2.0 toe crampon and the NEW Active Fit™ 2.0. Providing comfort, support and an easy entry and exit with the new cinch strap feature. The Torsion Deck design reduces stress on your joints while creating a natural stride even through steep, icy terrain.

Men's available sizes: 24", 28" (XL)

Men's Weight/Pair: 4.5 lbs / 2.04 kg (24")

Women's available sizes: 22"

Women's Weight/Pair: 4.0 lbs / 1.81 kg

Frame and Decking: Torsion Deck™, FLEX Tail™

Articulation: Rotation Limiter

Control: ActiveFit 2.0™ Binding

Traction: Viper 2.0™ Toe Crampon, Traction Rails

Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

DAY HIKING

Designed to cover trails, whether hills or flats, the Day Hiking Series will keep you safe and comfortable throughout your adventure.

MEN

WOMEN

PANORAMIC

The Panoramic delivers optimal flotation in fresh snow, while the snowshoe's DynamicFit™ binding with Boa® Closure System, provides an uncompromised precision fit. The Panoramic's Cobra traction grips icy, variable terrain with ease, so you can always reach the best view on the trail.

Men's available sizes: 25", 30", 36"

Men's Weight/Pair: 4.5 lbs / 2.04 kg (25")

Women's available sizes: 21", 25"

Women's Weight/Pair: 4.5 lbs / 2.04 kg (25")

Frame and Decking: Fit-Step™ 2.0 Frame, Soft-Tec™ Decking

Articulation: R2™ Revolution Response

Control: DynamicFit™ Binding

Traction: Cobra™ Toe Crampon, Tubbs Heel Crampon

Other: ActiveLift™ 16° Heel Lift, EZ Heel Buckle

MEN

WOMEN

WILDERNESS

With the same reliable traction as the Panoramic, the Wilderness includes the 180™ Pro binding, which provides pressure-free comfort and warmth. This snowshoe is the perfect blend of technology, comfort, and convenience. There's no adventure it can't tackle!

Men's available sizes: 25, 30, 36"

Men's Weight/Pair: 4.5 lbs / 2.04 kg (25")

Women's available sizes: 21, 25, 30"

Women's Weight/Pair: 4.5 lbs / 2.04 kg (25")

Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking

Articulation: Rotating Toe Cord with Rotation Limiter

Control: 180™ Pro Binding

Traction: Cobra™ Toe Crampon, Tubbs Heel Crampon

Other: ActiveLift™ 16° Heel Lift, EZ Heel Buckle

MEN

WOMEN

FLEX • RDG

Designed to tackle a wide variety of all-mountain terrain, the FLEX RDG features our easiest-to-use CustomWrap™ binding with Boa® Closure System. It's our only binding that incorporates the heel-strap into the binding's construction, creating exceptional full-foot precision with the simple twist of a dial.

Men's available sizes: 24"

Men's Weight/Pair: 3.9 lbs / 1.75 kg

Women's available sizes: 22"

Women's Weight/Pair: 3.5 lbs / 1.57 kg

Frame and Decking: Torsion Deck™, FLEX Tail™

Articulation: Rotation Limiter

Control: CustomWrap™ Binding

Traction: Traction Rails, Tubbs Toe Crampon

Other: ActiveLift™ 16° Heel Lift

MEN

WOMEN

NEW FLEX • TRK

This multi-purpose snowshoe just got an update! Featuring the streamlined 180™ EZ binding that offers an effortless and comfortable hike.

Men's available sizes: 24"

Men's Weight/Pair: 3.9 lbs / 1.75 kg

Women's available sizes: 22"

Women's Weight/Pair: 3.5 lbs / 1.57 kg

Traction: Traction Rails, Tubbs Toe Crampon

Other: ActiveLift™ 16° Heel Lift

TRAIL WALKING

Designed to carry you over level terrain and packed trails, the Trail Walking Series is perfect for beginning snowshoers or experienced hikers looking for a less-strenuous day.

WAYFINDER

Perfect for snow-covered meadows or city parks, the Wayfinder's easy-to-use CustomWrap™ binding with Boa® Closure System will get you on the trail in no time. With the heel-strap incorporated into the binding's construction, the CustomWrap delivers a full-coverage fit with a simple click and twist.

Men's available sizes: 25", 30", 36"

Weight/Pair: 3.9 lbs / 1.76 kg (25")

Women's available sizes: 21", 25"

Weight/Pair: 3.8 lbs / 1.72 kg (25")

Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking

Articulation: Rotating Toe Cord

Control: CustomWrap™ Binding

Traction: Recreational Toe and Heel Crampons

FRONTIER

An incredible value for trail blazers and families alike, the Frontier features the 180™EZ binding for superior ease-of-use and comfort. The Frontier's lightweight and gender-specific designs deliver efficient performance for packed trails.

Men's available sizes: 25", 30", 36"

Weight/Pair: 3.9 lbs / 1.75 kg (25")

Women's available sizes: 21", 25", 30"

Weight/Pair: 3.5 lbs / 1.57 kg (25")

XPLORE

The best way to start snowshoeing! The Xplore snowshoe is the lightweight, easy-to-use answer for the value-conscious customer experiencing snowshoeing for the first time. With similar traction to the Wayfinder, the intuitive QuickPull™ binding slides easily to cinch and unlocks with one push of a buckle.

Men's available sizes: 25", 30"

Weight/Pair: 3.6 lbs / 1.6 kg (25")

Women's available sizes: 21", 25"

Weight/Pair: 3.5 lbs / 1.55 kg (25")

Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking

Articulation: Rotating Toe Cord

Control: QuickPull™ Binding

Traction: Recreational Toe and Heel Crampons

FLEX • ESC

For new snowshoers and those looking for added support on their excursions, the FLEX ESC features the comfortable Torsion Deck™ frame, with the added benefit of a heel lift bar. This snowshoe enhances a natural gait at an affordable price. Perfect for those getting out on snowshoes for the first time.

Men's sizes: 24", 28" (XL)

Women's Weight/Pair: 3.9 lbs / 1.75 kg

Women's available sizes: 22"

Men's Weight/Pair: 3.6 lbs / 1.63 kg

Frame and Decking: Torsion Deck™, FLEX Tail™

Articulation: Rotation Limiter

Control: QuickPull™ Binding

Traction: Traction Rails, Tubbs Toe Crampon

Other: Heel Lift 16°

FLEX • STP

Designed for new snowshoers, or those looking for a casual day out on the trails, the FLEX STP offers a supportive and comfortable Torsion Deck™ and FLEX Tail™ design, with reliable Traction Rails to keep the foot secure throughout the hike. This shoe is the perfect opportunity for value-conscious buyers to enjoy the FLEX™ Series frames at an affordable price.

Men's available sizes: 24", 28" (XL)

Weight/Pair: 3.6 lbs / 1.63 kg

Women's available sizes: 22"

Weight/Pair: 3.3 lbs / 1.50 kg

Frame and Decking: Torsion Deck™, FLEX Tail™

Articulation: Rotation Limiter

Control: QuickPull™ Binding

Traction: Traction Rails, Tubbs Toe Crampon

YOUTH

Creating family fun in winter snowball fights, hot chocolate, and a fun day exploring outside.

FLEX • HKE

Designed for those who have outgrown traditional kids' snowshoes but aren't yet ready to step into a full-size adult model, the FLEX HKE features Traction Rails that keep snowshoes steady on icy slopes and variable terrain, with a Torsion Deck™ providing optimal flotation. With a simple QuickLock2™ binding, the HKE is ready for anything.

Available sizes: 22"

Weight/Pair: 2.6 lbs / 1.18 kg

Recommended shoe size: Jr. 3 - Adult 10

Frame and Decking: Torsion Deck™, FLEX Tail™

Control: QuickLock2™ Binding

Traction: Traction Rails, Tubbs Toe Crampon

Other: ActiveLift™ 16° Heel Lift

NEW GLACIER

The Glacier is sure to please "tweeners" (approx. 10-15 years old) headed on adventures with the family. This snowshoe has a tight frame shape to accommodate a narrower stance, as well as a fixed toe cord to help the snowshoes stay close underfoot, providing improved maneuverability through the snow.

Available sizes: 21"

Weight/Pair: 2.6 lbs / 1.18 kg

Recommended shoe size: Jr. 3 - Adult 10

Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking

Control: QuickLock2™ Binding

Traction: Recreational Toe & Heel Crampon

NEW STORM

The Storm is a true kid-friendly model, boasting a tapered frame shape and QuickLock™ binding. This unisex snowshoe might look like mom and dad's, but it's built to accommodate a small stance with a buckle that makes getting in and out a whole lot easier. Best for kids ages 6-10.

Available sizes: 19"

Weight/Pair: 2.0lbs / 0.91 kg

Recommended shoe size: Kids 11 - Adult 6

Control: QuickLock™ Binding

Traction: Recreational Toe & Heel Crampon

FLEX • JR

The FLEX JR brings the award-winning FLEX Tail™ design to kids ages 6-10 years old. The simple QuickLock™ binding—with its easy-stretch heel strap—enables kids to take control.

Available sizes: 17"

Weight/Pair: 2.4lbs / 1.09 kg

Recommended shoe size: Kids 11 - Adult 6

Frame and Decking: Torsion Deck™, FLEX Tail™

Control: QuickLock™ Binding

Traction: Traction Rails, Tubbs Toe Crampon

SNOWGLOW

More fun with every step! The SnowGlow, designed for young snowshoers (approx. 4-8 years old), features flashing LED lights that activate with each step. In addition to the MotionBright™ lighting system, the simple QuickLock™ binding provides easy on/off, while molded traction rails promote safe winter exploration.

Available sizes: 16"

Weight/Pair: 1.6lbs / 0.73 kg

Recommended shoe size: Kids 11 - Adult 6

Other: MotionBright™ Lighting System

SNOWFLAKE

Designed for our youngest explorers (approx. 3-6 years old), the SnowFlake is a great introduction to snowshoeing. The SnowFlake's fun design features an easy 2-step binding and, best of all, a sticker pack for boys and girls to customize their shoes.

Available sizes: 14"

Weight/Pair: 1.3 lbs / 0.60 kg

Other: Sticker Pack for Custom Snowflakes!

ACCESSORIES

SNOWSHOE POLES

Adjustable-length poles lend added security and stability on uneven, steep, or icy terrain. Featuring lightweight 6000 Series aluminum with a carbon steel tip, powder basket, and nylon wrist straps.

2-Part Poles (PR) 41 - 51" • 105 - 130 cm

SNOWSHOE HOLSTER

The snowshoe holster is the perfect way to transport your snowshoes and poles between excursions. The open design allows your gear to dry for proper storage and the reinforced polyester material is strong enough to carry poles.

Available sizes: 20 X 64cm

SNOWSHOE PACK

Adjustable shoulder straps hold this anatomically-designed pack snug against your back for hands-free movement and easy access. A grab-and-go side handle lets you transport your gear in one hand, while a durable nylon-canvas and mesh construction allows your snowshoes to dry between uses.

Available sizes:

8 x 25 in.	20x64 cm
9 x 30 in.	23x76 cm
10 x 36 in.	25x91 cm

Men

Women

GAITERS

Water-resistant and breathable, full-length nylon gaiters provide protection from the elements by keeping snow out of your boots.

TECHNOLOGY GLOSSARY

FRAMES AND DECKING

The Pro-Step™ frame combines a continuous frame bend with a longer, lower rise for improved flotation. The lower height nose packs easily, while the tail bend reduces impact on your joints

The innovative, upturned tail of the aluminum Fit-Step™ frame provides biomechanical benefits, reducing musculoskeletal impact on hip, knee and ankle joints by 10%.*

SoftTec™ decking provides durable, lightweight flotation and has a smooth, soft texture.

The patented FLEX Tail™ technology allows the snowshoe to roll more naturally from heel to toe. The FLEX Tail™ absorbs shock from the heel strike, reducing the amount of stress on joints.

Tubbs' advanced Torsion Deck™ allows torsional articulation throughout the body of the snowshoe, enhancing traction, preserving your natural gait, and improving comfort on uneven terrain.

ARTICULATION SYSTEMS

R2™ delivers shock-absorbing lateral flex and quick sidehill responsiveness, while maintaining a natural foot position. Full step rotation also sheds snow and allows the toe crampon to bite deeply.

The Rotating Toe Cord design enables the tail of the snowshoe to drop, shedding snow and reducing cardio-respiratory strain by 7%*, while a Rotation Limiter prevents over-rotation.

The Rotating Toe Cord design enables the tail of the snowshoe to drop, shedding snow off the tail. When weighted, the teeth on the toe traction underfoot bite deeply into the snow.

The Fixed Toe Cord pivot system is efficient for flat and rolling terrain with packed snow conditions, and it keeps the snowshoe close to the foot for quick turnover.

TRACTION

The razor-sharp, carbon steel Anaconda™ toe crampon has eight sharp teeth, providing constant contact and penetration in all types of terrain.

The carbon steel Cobra™ toe crampon, located under the ball of the foot, provides constant contact in variable snow conditions, while its jagged tooth construction improves grip on packed snow and ice.

The Viper™ 2.0 carbon steel toe crampon's jagged tooth construction maximizes weighted traction and responsiveness. The aggressive tangs in the toe crampon deliver an added degree of security on variable snow.

Our Recreational series of carbon steel toe and heel crampons feature front and rear braking teeth for secure uphill, downhill, and sidehill grip on packed snow conditions.

The aggressive Python™ heel crampon, centered under the boot, delivers enhanced downhill braking traction.

The 3D-Curved Traction Rails ensure superior sidehill grip in hard-packed and icy conditions. The curved shape helps prevent fore-aft slippage on steeper terrain.

* According to a study conducted by Ray Browning, Ph.D. (Colorado State University)

BINDINGS

The ActiveFit 2.0 binding features a TPU cinch strap for ease of entry, control and support while staying secure. Advantages of the TPU cinch straps is that it decreases friction and ice build up. To release the binding, just pull up on the pull strap. The EZ Heel Buckle is single handed convenience while ensuring all-day comfort.

The DynamicFit™ binding integrates the Boa® Closure System with the comfort of EVA foam, providing even pressure distribution around your boot and creating a precise fit with optimized control. Releasing the binding is as simple as pulling up on the Boa® dial.

Featuring the Boa® Closure System, the innovative and quick-to-secure CustomWrap™ binding provides optimal fit, comfort, and ease of use, encompassing your foot with the simple twist of a dial.

Our most robust 180™ Series binding, the gender-specific 180™ Pro features rigid Control Wings™, a locking heel strap, and a padded upper for pressure-free comfort and added warmth.

The streamlined 180™EZ binding features a simple, one buckle tightening mechanism, coupled with easy-to-use Control Wings™ and a heel strap for efficient, lightweight support.

An intuitive forefoot strap on the QuickPull™ binding cinches easily and unlocks with one buckle push. The pivoting toe stop allows for speedy adjustments, and Control Wings™ keep your heel aligned.

The QuickLock2™ binding slides easily to lock and stays snug around the boot, providing security and comfort.

The simple tightening and locking buckle on the QuickLock™ binding makes getting kids in and out of snowshoes easier than ever.

OTHER

Designed to make steep ascents easier, the ActiveLift™ heel lift reduces calf fatigue and Achilles tendon strain. It can be easily pulled up and down. The 19° Backcountry heel lift is ideal for extreme ascents, while the 16° Day Hiking version is designed for moderate terrain.

Tubbs Snowshoes was the first company to manufacture gender-specific snowshoes, and remains committed to an ergonomics-first approach when designing all of our men's and women's products. Tubbs women's-specific snowshoes are lighter in weight, feature ergonomically-tapered frames for an easier stride, and offer women's-specific bindings, sized and scaled for a woman's boot (in sizes 5-11), for an optimal fit.

Flashing LED lights with every step! Motion-activated LED lights create excitement to get outside. Battery included and replaceable.
